Introduction

The University Aviation Association (UAA) is a nonprofit organization that represents colleges and universities that offer academic degree programs in aviation at both the undergraduate and graduate level.

The purpose of this publication is to consolidate the publicly available information concerning collegiate aviation scholarships in one document. It is expected that the university aviation student, students' parents, and faculty members, as well as prospective students and their parents, will find the information in this catalog useful.

In all, this publication describes how to obtain applications for over 200+ collegiate aviation scholarship awards with a total value of over one million dollars.

This scholarship listing is one of the many publications and services offered by the University Aviation Association. For more information, visit the UAA website at www.uaa.aero. The total number of scholarships and the amounts of scholarships listed in this catalog, while impressive, are a small part of the total financial aid possibilities available to college aviation students.

Other Sources of Financial Aid That Are Available Include

- Federal and state grant scholarship and loan programs.
- Collegiate institution supported grant, foundation, tuition waiver, and student-work programs.
- Departmental scholarships available to specific majors.

University Aviation Association is Located in the Memphis Metro Area

UAA is comprised of more than 1,200 members from more than 150 colleges and universities in the U.S., Canada, Australia, Europe, and Asia. The organization and its members are poised to meet the ever-changing needs of the aviation industry and address the challenges of the 21st century. Through the collective expertise of our members, UAA plays a pivotal role in the advancement of degree granting aviation programs that represent all segments of aviation. A professional association and unifying voice for promoting and furthering aviation education as a collegiate academic discipline.

Tips for Submitting Your Best Application

- Read the requirements and follow all directions paying attention to the details.
- If a certified transcript is required – be sure it is certified.
- Write a great essay AND keep essays within the specified word count.
- Start early and don't miss the deadline.
- Make sure your application package is complete and ALL requested material is included. Incomplete application packages will not be reviewed.
- Do not include things that are not requested in the application – i.e. photos, videos, etc.
- Proofread and review thoroughly before submission and have a mentor review for completeness prior to submission.
- Don't ignore small awards. Small awards can add up. Plus, the larger the award, the more competition you'll face.
- Try, try again. Keep trying even if you don't win a scholarship right away. Save copies of every application that you complete so you don't have to start from scratch every time.

Description

The DeVore Freedom of Flight Scholarship offers college students an opportunity for initial flight training at schools with FAA Part 141 flight schools.

The Freedom of Flight Scholarship was established to honor Dr. DeVore for his contributions to aviation at the local and national levels. His interests have been in promoting aviation education for our youth and providing them with opportunities to enter into dynamic and rewarding careers in aviation. In September 2001, Dr. DeVore completed a solo flight in a single-engine aircraft that circumnavigated the contiguous 48 states; landing at 40 airports in 36 states to promote aviation scholarships.

Scholarship Criteria

Open to students entering as undergraduates in a collegiate aviation program; a Freshman, Sophomore, Junior, Senior, or graduate program. Must be admitted, and must be enrolled at the time the award is dispersed, to a University Aviation Association member institution with a Part 141 approved program. Community college and university applicants are encouraged to apply. Applicants must be admitted to, and undertaking, an aviation-related major. A minimum of 3.0 overall GPA on a 4.0 GPA scale. Submit an essay, 250–750 words, demonstrating a love of aviation and a commitment to flight training. Extracurricular involvement/community involvement may be considered. A recommendation letter from a faculty member from a UAA member institution supporting the candidate's application for this scholarship. Students entering a collegiate Part 141 program as a Freshman may use recommendation letters from other sources.

Description

The Frasca family established this scholarship through the University Aviation Association (UAA) in the name of their son, Joseph Frasca. Joseph excelled as an undergraduate aviation student earning a reputation as a dedicated and competent scholar. His tireless efforts to promote and support aviation resulted in significant worldwide contributions to the industry and his abilities as an aerobatic pilot and ambassador of aviation provided many hours of enjoyment to thousands of people. He was indefatigable in reaching the highest standards of performance and achievement in every challenge he faced.

Aim of Scholarship

The Joseph Frasca Excellence in Aviation Scholarship was established through the University Aviation Association to encourage others to reach the highest level of achievement in their aviation studies and awards \$2,000. It is bestowed upon those who demonstrate a commitment and devotion to aviation in the tradition of Joseph Frasca.

Scholarship Criteria

This prestigious aviation scholarship recognizes exceptional individuals dedicated to a future in aviation. To be considered, candidates must demonstrate a sustained commitment to excellence in the field, both academically and practically. This commitment should be clearly evident through several avenues, including consistently outstanding performance in aviation-related coursework, active and meaningful engagement in relevant extracurricular activities such as aviation clubs or flight teams, and demonstrable participation in significant aviation events and recognized organizations. A minimum cumulative grade point average of 3.0 is required to ensure a strong foundation of academic proficiency. Furthermore, applicants must hold a valid and current FAA certification or qualification, specifically within either aviation maintenance or flight operations, showcasing a tangible and practical level of professional skill and a commitment to hands-on experience.

Description

The Rene Matos Memorial Scholarship was established in the name of a very motivated and dedicated man, who epitomized the dream to succeed, while helping others along the way. Even from his humble beginnings as an air traffic controller in Puerto Rico, Rene displayed a talent and personality that could not be contained there. While he was in Puerto Rico, Matos never curbed his desire to advance in his career. Already gifted in what he did as a controller, Rene wanted to do more; not only for his own career, but for other Hispanics as well. He educated himself and eventually moved up in the ranks as a top manager at the William J. Hughes Technical Center in New Jersey. It was Rene's drive, diligence, and determination that earned him that position.

Scholarship Criteria

Must be a U.S. Citizen or a permanent resident, residing in the United States or Puerto Rico. Applicants must be accepted or attending an accredited college, university, or vocational/trade school at the time the scholarship is awarded. Applications received after the application deadline will NOT be accepted.

Description

The DeVore Freedom of Flight Scholarship offers college students an opportunity for initial flight training at schools with FAA Part 141 flight schools.

The Freedom of Flight Scholarship was established to honor Dr. DeVore for his contributions to aviation at the local and national levels. His interests have been in promoting aviation education for our youth and providing them with opportunities to enter into dynamic and rewarding careers in aviation. In September 2001, Dr. DeVore completed a solo flight in a single-engine aircraft that circumnavigated the contiguous 48 states; landing at 40 airports in 36 states to promote aviation scholarships.

Scholarship Criteria

Open to students entering as undergraduates in a collegiate aviation program; a Freshman, Sophomore, Junior, Senior, or graduate program. Must be admitted, and must be enrolled at the time the award is dispersed, to a University Aviation Association member institution with a Part 141 approved program. Community college and university applicants are encouraged to apply. Applicants must be admitted to, and undertaking, an aviation-related major. A minimum of 3.0 overall GPA on a 4.0 GPA scale. Submit an essay, 250–750 words, demonstrating a love of aviation and a commitment to flight training. Extracurricular involvement/community involvement may be considered. A recommendation letter from a faculty member from a UAA member institution supporting the candidate's application for this scholarship. Students entering a collegiate Part 141 program as a Freshman may use recommendation letters from other sources.

Vertical Flight Foundation (VFF)

Contact
www.vtol.org

217 North Washington Street
Alexandria, VA 22314

Amount(s) Awarded

Scholarships Awarded vary, Value may range from 4-6K

Usual Deadline

February

Description

Each year, Vertical Flight Foundation (VFF) scholarships are awarded to college students demonstrating an interest in pursuing engineering related careers in vertical flight technology. The Foundation scholarship awards are made possible solely by tax deductible donations that have been established and contribute to an endowment. The VFF scholarships are solely merit-based and the value of the scholarships range from \$4,000 up to \$6,000 (USD). The program is open to full-time students attending a university or college located anywhere in the world and regardless of a student's nationality.

Scholarship Criteria

A student does not need to be a member of the Vertical Flight Society, but we encourage you to explore the many benefits student membership can provide. In addition, the student must be registered in the relevant engineering degree program at least one (1) academic term after the scholarship awards, which are presented at the Society's Annual Forum in May. Technical disciplines relevant to complex aeronautics engineering or aviation systems, even if not considered, vertical lift engineering will receive equal consideration. A student can receive an award once an Undergraduate, once a Master's student, and once a Graduate student. In order to qualify for consideration of the scholarship, an applicant must demonstrate a detailed interest and appreciation on the importance of affordability and how it might be improved within the Vertical Flight community. Affordability information should be highlighted via an applicant's narrative and resume.

How Your Application Is Evaluated

All applications are reviewed by the VFF Scholarship Committee. Several scholarships are awarded each year by the Vertical Flight Foundation, unless there are no qualified applicants. Scholarship recipients will be notified by the VFF Coordinator in late March/early April.

High School

Aim High Flight Academy (AHFA)

Scholarship Sponsor
Air Force Recruiting Service (AFRS)

Contact

www.aimhighflightacademy.com

Usual Deadline

December

Amount(s) Awarded

AHFA is a robust three (3) week Flight Academy structured to ensure students learn everything necessary to achieve up to 15 flight hours and potentially complete their first solo flight by the conclusion of the academy.

Description

The Aim High Flight Academy (AHFA) is an aviation scholarship for a three (3) week introductory flight program at various universities across the world. All expenses are paid for by the U.S. Air Force!

The mission of the AHFA is to inform, influence, and inspire the next generation of aviators and leaders. After completion of the AHFA, students will understand the pathways to become an Air Force officer, aviator, and earn up to 15 flight hours.

AHFA pairs high school students, USAFA, and AFROTC cadets with current Air Force members who provide mentorship about the various aviation professions and career fields.

Scholarship Criteria

Applicants must: Be between the ages of 16 and 23; Be a full-time student in High School, College, or an enlisted member of any service enrolled in school full-time; Understand they are volunteering for a scholarship to a public flight school contracted by the United States Air Force. College applicants must be currently enrolled in AFROTC or the United States Air Force Academy to be qualified. There is no military service commitment or obligation, nor does program completion justify acceptance to military service. Applicants must be at least 16 years old by 1, June, 2026, and have a minimum cumulative GPA of 3.0 or better (on a 4.0 scale) to submit a package or be nominated.

To accomplish this, applicants must include a rotation of three (3) week segments every day; which include flight simulator time, academic classroom time (white board and lecture lesson style), and flight time. The students will be assigned into flights and be assigned a wingman within that flight, to study and fly with throughout their time during the program. When students aren't in structured flight time, the additional hours of the day will be filled with mentorship with their flight commanders and other staff, studying to prepare for the next day, character development, and supplemental "tips and tricks". Tips and tricks include chair flying, Emergency Procedure practice, and how to conduct "stand ups" to name a few. (Stand ups are the daily briefs conducted by aviators to inform members about daily weather, any NOTAMs, and can include an EP and other relevant information).

Description

Don and Carol Bedford were a team. Don had earned his Airframe and Power License and was well on the way to a degree in aeronautical engineering, when he felt impelled to join the workforce at Lockheed Aircraft at the outbreak of WWII. Don later joined the Army Air Corps where he eventually joined the Aviation Cadet program. He was transitioning to fighters when the war ended. He returned to Lockheed where he rubbed shoulders with the likes of Tony LeVere, Howard Hughes, and worked on the P-80 program. In 1947, Don took a job with Alaska Coastal Airlines in Juneau. He stayed through a series of mergers, to retire from Alaska Airlines in 1993. Carol was from the Chicago area where she attended business school. She traveled to Alaska on a whim, and took a job at Alaska Airlines where the two met.

Air Force Recruiting Service (AFRS)

Contact

www.aimhighflightacademy.com

Usual Deadline

December

Amount(s) Awarded

AHFA is a robust three (3) week Flight Academy structured to ensure students learn everything necessary to achieve up to 15 flight hours and potentially complete their first solo flight by the conclusion of the academy.

Description

The Aim High Flight Academy (AHFA) is an aviation scholarship for a three (3) week introductory flight program at various universities across the world. All expenses are paid for by the U.S. Air Force!

The mission of the AHFA is to inform, influence, and inspire the next generation of aviators and leaders. After completion of the AHFA, students will understand the pathways to become an Air Force officer, aviator, and earn up to 15 flight hours.

AHFA pairs high school students, USAFA, and AFROTC cadets with current Air Force members who provide mentorship about the various aviation professions and career fields.

Scholarship Criteria

Applicants must: Be between the ages of 16 and 23; Be a full-time student in High School, College, or an enlisted member of any service enrolled in school full-time; Understand they are volunteering for a scholarship to a public flight school contracted by the United States Air Force. College applicants must be currently enrolled in AFROTC or the United States Air Force Academy to be qualified. There is no military service commitment or obligation, nor does program completion justify acceptance to military service. Applicants must be at least 16 years old by 1, June, 2026, and have a minimum cumulative GPA of 3.0 or better (on a 4.0 scale) to submit a package or be nominated.

To accomplish this, applicants must include a rotation of three (3) week segments every day; which include flight simulator time, academic classroom time (white board and lecture lesson style), and flight time. The students will be assigned into flights and be assigned a wingman within that flight, to study and fly with throughout their time during the program. When students aren't in structured flight time, the additional hours of the day will be filled with mentorship with their flight commanders and other staff, studying to prepare for the next day, character development, and supplemental "tips and tricks". Tips and tricks include chair flying, Emergency Procedure practice, and how to conduct "stand ups" to name a few. (Stand ups are the daily briefs conducted by aviators to inform members about daily weather, any NOTAMs, and can include an EP and other relevant information).

Have an aviation scholarship you'd like to list in this catalog or share with our students?

UAA will list scholarships free of charge in our publications, list them on our website, and distribute them electronically to our membership.

Electronic distribution of your aviation scholarship information through the University Aviation Association (UAA) offers broad reach to students and faculty. This distribution includes:

Collegiate Aviation Scholarship Catalog:

Your scholarship will be featured in this comprehensive catalog, a key resource for students seeking funding for their aviation education

UAA Connect Monthly Newsletter:

The UAA Connect newsletter, distributed monthly, provides another avenue to promote your scholarship opportunity directly to interested students and faculty

Targeted Blast Emails:

UAA will send dedicated emails to its extensive network of students and faculty, ensuring your scholarship reaches a highly relevant audience.

For a scholarship to be listed at no cost, it must be available to UAA students pursuing collegiate aviation education and meet both of the following criteria:

1. Specifically aviation related
2. Available to assist students pursuing a degree in aviation at any member college or university of their choosing

Scholarships may, however, include eligibility criteria based on geographic residence, veteran status, gender, minority status, or other applicant-specific criteria beyond the institution attended.

If your scholarship meets these criteria and you wish to take advantage of this valuable distribution opportunity, please contact UAA at hello@uaa.aero. We will be happy to provide you with a form to submit your scholarship information for inclusion in the next available distribution.
